I have the following suggestion for consideration at this time, please note I am making this in a private capacity and not on behalf of any local authority.

Under Investing in Society – possibly under “1. Investing in our Communities”
Recommend that introduction of reduced 30km/h speed limits in housing estates be referenced and supported as a means of improving quality of life for our communities and our children.
If funding for Local Authorities (incl. Dublin Authorities!) can be increased, particularly in the short term, it would greatly assist with the roll-out of Slow Zones on either an increased scale, or in more of a self-enforcing manner.
A small investment in funding here will go a long way to improve road safety within housing estates.
This is already to be implemented as per Circular RSD 01/2014, so inclusion in the Strategy would reinforce its introduction or its status.

Thank you.

Best regards,

Carol Kavanagh
